

"ai,ai" Ltd in association  
with the new  
**SNAP THEATRE COMPANY**

With thanks to  
**Lemon Jelly Arts, Leicester**

brings you a choice of two storytelling projects  
that will inspire children to tell stories and write  
using their creativity and imagination...

## **THE LONGEST STORY IN THE WORLD 2013-14**

Andy Graham, director, writer, producer and teacher and his international team of artists have been travelling the world since 2005 developing teacher training programmes, creating networks of organizations to work together and creating 5 day projects or theatre camps across the world.

Andy and the teachers and artists have worked with over 4500 children in Bangladesh, Rwanda, Romania, The Gambia the UK and now Spain.

The 2013/14 project brings together 320 young people, including those with special needs, aged 8-12 years of age for a week of creative activities working with dancers, circus performers, arts and crafts, actors, animators and musicians from different parts of the world.

It gives children a voice and the confidence to tell their stories and leads to an original performance at the end of the week in front of civic leaders.

2013/14 sees a return to **Rwanda** (October) and **Sant Boi** near Barcelona (July) as well as **Bishop's Stortford** (June) and **Leicester** (2014) in the UK.

Children from the streets, from war zones, from private and state education, those with physical and learning difficulties take part with full support. For many it is life changing and for some it is their first opportunity in a long time to play and to be children.

**To make this happen we need to raise £5000 for each project.**

This goes to cover flights for the artists, accommodation, food and transport for the children, materials for the activities - mask making, animation etc..

**We need your help and your support.**
